

Important Message For VISA Credit Cardholders

Over the past few months, fraud involving stolen credit card numbers has risen sharply, especially the use of stolen US-based card numbers overseas. We are implementing some changes to protect our members and the credit union from this criminal activity. So while your VISA card can still be used all over the world, we are taking an important step to prevent this as much as possible.

Starting March 1st:

If you and your card will be traveling abroad OR purchasing from companies located outside the United States, you MUST contact us ahead of time! Just call us at 866-657-0004, and we will add a note to your account which will greatly assist VISA in approving your transactions safely no matter where you are.

Credit card fraud is predicted to greatly increase in 2018 and we thank you for helping us fight this problem. We value your membership and always welcome the opportunity to serve you.
